STAT

1. We sincerely appreciate the time you spent with our Career Development Program personnel during their trip to Washington, DC, 14-16 September 1982. The purpose of the trip was to meet people who are potential users of our scientific and technical intelligence products and influence the requirements that guide our efforts. Your presentation and the subsequent discussions broadened our perspectives and helped us refine the support we provide to national level intelligence consumers.

2. The success of the trip was due in large part to your valuable contribution. Thank you for your participation.

DAVID S. WATROUS, Colonel, USAF
